

# Premium Stations

Different solutions based on the JBC Modular System specially designed for different soldering and rework processes.

## Nano Stations

### NANE

#### 2-Tool Soldering Station

The best solution for **soldering SMD** requiring the highest precision.

It includes two NT115 Nano Handles.

### NASE

#### 2-Tool Rework Station

The best solution for **rework SMD** requiring the highest precision.

It includes NT115 Nano Handle and AN115 Adjustable Nano Tweezers.

## Heavy Duty Stations

### HDE

#### Heavy Duty Soldering Station

The **most powerful soldering unit** of the JBC Range.

It includes T470F Thermal Insulator Grip HD Handle.

### HDEK

#### Heavy Duty Rework Station

Designed to **reduce the soldering time** in applications that require a large amount of heat transfer.

It includes two HDE Control Units and HT470 Heavy Duty Thermal Tweezers.

## Auto-Feed Stations

### ALE

#### Automatic-Feed Soldering Station

The ideal solution for the **soldering process** requiring high productivity.

It includes ALE250 Automatic-Feed Soldering Iron and GALE10V Guide Kit.

### SF

#### Automatic Solder-Wire Feeder Station

Allows **feeding solder wire** automatically from any position.

It includes the ergonomic SF280 Auto Solder-Wire Handle and GSF10V Guide Kit.

# Rework Stations

## DMPSE

### 4-Tool Rework Station

DMPSE Station is a **complete solution to rework circuits** with T245 General Purpose Handle, DR560 Desoldering Iron, T210 Precision Handle and AM120 Adjustable Micro Tweezers. DME manages up to four tools simultaneously and is fully compatible with 10 different JBC Tools.

# Complete Rework System

## RMSE

### Complete Rework System

The **quickest and safest solution to solder and rework all kinds of SMDs**. DDE Control Unit manages up to two tools simultaneously and is fully compatible with 10 different JBC Tools. MSE Electric Desoldering Module is indispensable for a complete desoldering process. JTSE Hot Air Station controls the rework task using temperature and airflow profiles. This station includes DR560 Desoldering Iron, T245 General Purpose Handle and JTT Heater Hose Set.

## Rework Stations

### DDPE

#### 2-Tool Precision Rework Station

DDPE Station is a **perfect solution for fast and precise SMD rework of chip components and small outline ICs.**

This rework station comes with T210 Precision Handle and AM120 Adjustable Micro Tweezers.

DDE Control Unit manages up to two tools simultaneously and is fully compatible with 10 different JBC Tools.

### DDSE

#### 2-Tool Rework Station

DDSE Station is a **complete solution to rework circuits with medium power requirement** with T245 General Purpose Handle and DR560 Desoldering Iron.

DDE Control Unit manages up to two tools simultaneously and is fully compatible with 10 different JBC Tools.

### DMSE

#### 2-Tool Rework Station

DMSE Station is a **complete solution to rework circuits** with T245 General Purpose Handle and DR560 Desoldering Iron.

DME Control Unit manages up to four tools simultaneously and is fully compatible with 10 different JBC Tools.
